County Tax	
Unpaid Bills	300.00

REPORT OF SELECTMEN

Because of the present war situation the Selectmen feel that during 1942 every effort should be made to curtail the expenses of the town.

Because the town of Berkley has no industries and because most of the land and buildings have a relatively low value, we are necessarily very limited in taxable income. It is therefore highly important, that during this war period we keep our expenses at the minimum.

The town, at present is in the best financial condition it has been for several years, but there is always room for improvement. The town debt is now only \$2,900.00 and \$1,500.00 of this debt will be paid in 1942. This debt was incurred when the addition to the Berkley Common School was built. The final payment on this note is due in 1943 and with this payment the town will be free of funded debt.

Because of the good financial condition of the town it has been possible for the town to borrow money for the past two years at an interest rate of a fraction of 1 per cent interest.

The estimated budget for expenses in 1942 is about \$6,000.00 less than for 1941. Most of this reduction in the budget is due to the discontinuing of the W. P. A. projects and reduction of welfare costs for 1942. This saving should reduce the tax rate for 1942 to about \$34.00 a thousand as compared with a tax rate of \$37.60 in 1941. This would mean a net reduction in the tax rate of \$11.00 per thousand in four years.

There is about \$2,500 left from unexpended balances from 1941 appropriations which also may be available either for transfer to the reserve account or in reduction of taxes in 1942.

On the other side of the picture the town will probably lose about \$1,500 of State reimbursement for schools, because of the re-classification which the State has made in revaluing the town.

While the tax situation in the town has been unsatisfactory for several years, there has been a noticeable improvement during the past two years. This should show considerable further improvement during 1942.

WARREN L. IDE, Chairman

TOWN WARRANT

Article 1. To hear the report of the Finance Committee and act thereon.

Article 2. To act on reports of town officers.

Article 3. To see if the town will appropriate a sum of money for the Public Library including the dog fund.

Article 4. To fix the compensation for the tax collector and treasurer for the ensuing year.

Article 5. To choose all necessary officers, one Selectman and Overseer of the Poor for three years, one Assessor for three years, one School Committee member for three years, one Trustee of the Library for three years, Town Treasurer for one year, collector of taxes for one year, Auditor for one year, three fish wardens for one year, Tree Warden for one year, seven constables for one year, three oyster wardens for one year.

Article 6. To raise and appropriate sums of money for highways and bridges including an amount for bridge tender, and painting Berkley bridge.

Article 7. To raise and appropriate a sum of money for schools, including supplies, high school tuition, salary of superintendent, transportation of scholars and repairs on buildings.

Article 8. To raise and appropriate a sum of money for salaries of Town Officers, incidentals, interest, fire department, public welfare, old age assistance, soldiers' relief and aid to dependent children.

Article 9. To see if the Town will vote to raise and appropriate definite sums of money for the administration expenses including supplies for the various departments of the Town or act thereon.

Article 10. To raise and appropriate a sum of money to be expended in suppressing the gypsy and brown tail moths, including private work.

Article 11. To choose a memorial committee and appropriate a sum of money for the same.

Article 12. To raise and appropriate a sum of money to be used in the cemetery and on the care of graves of soldiers and sailors.

Article 13. To raise and appropriate the sum of \$785.39 for the Bristol County Tuberculosis Hospital maintenance and repair.

Article 14. To raise and appropriate a sum of money for snow removal in the year 1942.

Article 15. To see if the Town will vote the amount per hour to be paid for labor, trucks and horses for highway department work or act thereon.

Article 16. To see if the Town will vote to set the amount per hour to be paid for labor, trucks, and autos relative to the fire department.

Article 17. To see what action the Town will take in regard to the removal of snow and to set the amount per hour to be paid for labor and trucks.

Article 18. To see if the town will vote to raise and appropriate a sum of money to be used for W. P. A. purposes or act thereon.

Article 19. To see if the Town will vote to raise and appropriate a sum of money for the purpose of purchasing a road scraper or act thereon.

Article 20. To see if the town will vote to raise and appropriate the sum of \$1,500.00 to be paid on the principal of the school house note or act thereon.

Article 21. To see if the town will vote to raise and appropriate a sum of money for compensation insurance for town employees or act thereon.

Article 22. To see if the town will vote to authorize the treasurer with the approval of the selectmen to borrow money in anticipation of the revenue of the current financial year, and to issue a note or notes therefor, in accordance with the provisions of Chapter 44 of the General Laws as amended.

Article 23. To see if the town will vote to authorize the treasurer, with the approval of the selectmen to sell at such time or times as may be deemed to be of benefit to the Town, certain parcels of land of low value taken by the Town at a sale held under the provisions of Sections 79 and 80 of Chapter 60 of the General Laws.

Article 24. To see if the Town will raise and appropriate a sum of money for mosquito control or act thereon.

Article 25. To elect a Finance Committee.

Article 26. To see what action the town will take in regard to a set of by-laws which have been proposed by a committee on by-laws elected at a former town meeting.

Article 27. To see if the town will vote to raise and appropriate a sum of money for Civilian Defense or act thereon.

Article 28. To see what action the town will take in regard to a petition presented to the selectmen in regard to construction of a wall or fence on the northerly side of a portion of Padelford St. or act thereon.

Article 29. To raise and appropriate a sum of money for certain unpaid bills of 1941 or act thereon.

Article 30. To see if the town will vote to transfer unexpended balances and overlay surplus of past years to the reserve account or act thereon.

Article 31. To act on any other business that may legally come before the meeting.

Town Meeting, Monday, March 9, 1942, 10:00 A. M.

**LIST OF PERSONS QUALIFIED TO SERVE AS
JURORS FOR THE TOWN OF BERKLEY**

In 1941 \$100.00 added to principal of Asa W. Reed Fund, and a new fund with a principal of \$100.00 established for Frances A. Phillips lot.

Respectfully submitted,

FRANCIS F. G. ANDREWS,
Treasurer.

TOWN AUDITOR'S REPORT

Jan. 27, 1942

Having been inducted into the U. S. Army as of this date, I was unable to complete the work of auditing the town books. Everything was in order as far as I went; during the year I checked the books of the treasurer with statements of moneys paid to him as received by me from various sources, and checked the payments with the warrants monthly up to the December warrants. The collector's books were gone over and statements of unpaid taxes sent out for verification purposes, and up to the time of my going away nothing had been returned which would show any discrepancies. I refer everyone to the report of the State auditors, which covers up to Sept. 24, 1941.

ROBERT D. ANDREWS,

Auditor.

November 4, 1941

To the Board of Selectmen
Mr. Warren L. Ide, Chairman
Berkley, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the general accounts of the town of Berkley for the period from October 8, 1939 to September 24, 1941, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

AUDITOR'S REPORT 1939—1941

Mr. Theodore N. Waddell
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Berkley for the period from October 8, 1939, the date of the previous audit, to September 24, 1941, and submit the following report thereon:

General ledged accounts were compiled, the appropriation accounts were analyzed and checked to the amounts voted by the town, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on September 24, 1941.

The books and accounts of the town treasurer were examined and checked. The receipts, as recorded, were compared with the departmental records of payments to the treasurer and with the other sources from which money was paid to the town. The payments were checked with the selectmen's warrants, the cash book was footed, and the cash balance on Septem-

ber 24, 1941, was proved by reconciliation of the bank balance with a statement furnished by the bank in which town funds are deposited and by examination of the savings bank book.

It was noted that on September 24, 1941, the expenditures for Chapter 81 highway projects exceeded the amount available by \$4,129.86, and the expenditures for Chapter 90 highway project exceeded the amount available by \$1,999.90. Attention is called to the fact that expenditures for highway projects carried on by the town in conjunction with the State and the County may not exceed the aggregate amount of the appropriation voted by the town, together with the amounts actually received on account of allotments. Whenever the reimbursements from the State and the County are not received in time to provide funds for payment of pay-rolls and materials, temporary loans under the provisions of Section 6A, Chapter 44, General Laws should be issued by the treasurer.

The payments made for maturing debt and interest were compared with the amounts falling due and with the cancelled securities on file.

The savings bank books representing the investment of the trust and investment funds in the custody of the town treasurer were examined and listed, the income being proved and the transfers to the town being checked with the treasurer's recorded receipts.

The records of tax titles held by the town were examined and reconciled with the collector's and the treasurer's books, being further verified by comparison with the records in the Registry of Deeds.

Attention is called to Section 61, Chapter 60, General Laws, as amended, which requires that the collector shall certify to the treasurer on approved forms, not later than September first of the year following that of their assessment, all subsequent taxes to be added to the tax title account, and that the treasurer shall give the collector a certificate stating that the amounts have been added to the tax title accounts.

Overlay deficits for the levies of 1931, 1936, and 1937, appearing on the balance sheet and aggregating \$606.42, should be raised by the assessors in accordance with the provisions of Section 23, Chapter 59, General Laws, as amended.

The assessors' warrant for the commitment of property taxes 1941 to the collector is dated October 16, 1941. In this connection attention is called to the provision of Section 57, Chapter 59, General Laws, as amended, which reads, in part, as follows:

"Taxes shall be payable in every city, town and district in which the same are assessed, in two equal instalments, on July first and on October first of each year, and bills for the same shall be sent out not later than June fourteenth of each year."

It was also noted that in 1941 no commitment of motor vehicle excise taxes had been made by the assessors to the collector up to September 12, 1941.

It is recommended that the commitments of poll, property, and motor vehicle excise taxes be made early in the future in order that the town may benefit from earlier collections which would follow.

The books and accounts of the collector of taxes were examined and checked. The poll, property, and motor vehicle excise taxes, as well as moth assessments, outstanding according to the previous examination, were audited, and all subsequent commitments were checked to the warrants for their collection.

The payments to the treasurer were checked to the treasurer's cash book, the recorded abatements were compared with the assessors' records of abatements granted, and the outstanding accounts were listed and proved.

The outstanding tax and assessment accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it would appear that the accounts, as listed, are correct.

Attention is called to Section 2, Chapter 60, General Laws, which provides that the collector shall, once in each week or oftener, pay over to the treasurer all money collected by him during the preceding week or lesser period on account of taxes and interest.

Attention is also called to the outstanding taxes which date back to 1935. Immediate action should be taken to bring about a complete settlement of all taxes of prior years.

The financial records of the town clerk were examined and checked in detail. The receipts from dog licenses issued on behalf of the county, and from sporting licenses, the proceeds of which are paid to the State, were checked and proved, and the recorded payments to the State and to the town treasurer were verified.

Attention is called to the provisions of Section 40, Chapter 44, General Laws, as amended, requiring the town clerk to cause the audit report or a summary of its essential features to be published.

It was noted that the town clerk's record of appropriations voted by the town at the annual town meeting held March 10, 1941, was not written up when the record was called for on October 14, 1941. It is recommended that the record of town meetings be written up promptly and legibly after each town meeting. In this connection attention is called to the provisions of Section 15A, Chapter 41, General Laws, which reads as follows:

"City and town clerks shall, as soon as an order or vote appropriating money becomes effective, certify, in a city to the treasurer, assessors and auditor or similar officer, and in a town to the assessors and the town accountant, if any, otherwise to the treasurer, each appropriation in detail, and the provisions made for meeting same, if specified in the appropriation order or vote."

The surety bonds of the financial officials bonded for the faithful performance of their duties were examined and found to be in proper form.

The records of the departmental accounts receivable on account of public welfare, aid to dependent children, and old age assistance were examined, and it was found that the records of bills sent out for collection were incomplete. As considerable income is received from the State and cities and towns as reimbursements for amounts expended, it is recommended that all departments promptly notify the treasurer of all bills sent out for collection and that they keep a record of all such bills sent out, in order that the collection of the outstanding accounts may be properly followed up.

It is recommended that steps be taken toward the establishment of a proper system of accounting, so that complete records may be available in a single office and so that the true financial condition of the town may be determined at any time.

The records of the sealer of weights and measures, as well as of all other departments collecting money for the town or committing bills for collection, were examined, checked and reconciled with the treasurer's recorded receipts.

There are appended to this report, in addition to the balance sheet, tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax and tax title accounts, together with tables showing the condition and transactions of the trust funds.

During the progress of the audit, co-operation was extended by the various town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,
Assistant Director of Accounts.

REPORT OF THE BERKLEY SCHOOL COMMITTEE

In submitting its annual report, the committee would call attention to the report of the superintendent of schools. It is worthy of careful consideration.

During 1941, there were three changes in the teaching staff. Miss Dorothea McAloon, teacher at the Myricks School, resigned in April to be married, and to the vacancy thus created, the committee brought Miss Barbara Allan of Needham, a graduate of the State Teachers College at Bridgewater.

Miss Mary G. Taylor, of Harwich, was the committee's choice as successor to James Horton, teacher at the Berkley School, who, in August, resigned to pursue a new field of work.

William Kearns, of Weymouth, a graduate of the State Teachers College at Bridgewater, was elected to the Berkley School in September for Ernest H. Hale, who resigned to accept a teaching position in Vineyard Haven.

Eighty-five pupils attended the dental clinic at the Berkley School during the past year. Permanently located in the basement of the school, the clinic represents a valuable addition to the school's health program. Three hundred and forty operations were performed by Dr. Edmund Tobin, of Brookline, the clinic dentist.

The "unfinished" room at the Berkley School is rapidly nearing completion. A new floor has been laid, a platform constructed, and electric lights and a folding partition have been installed. The finishing of the walls and ceiling in this room will mean the accomplishment of the committee's aim to provide the school with an auditorium, where school functions may be presented. The folding partition makes possible the joining of the two rooms annexed to the building in 1937. Because of limited funds, the realization of the project, which was a part of the original plan for the addition to the school, has been gradual. In its unfinished stage, the auditorium was used for the conduct

of graduation exercises in June. Seats were provided through the courtesy of the Dighton High School and the Bristol County Agricultural School. Since that time, the committee has purchased fifty double chairs. Eventually, adequate seating capacity will be provided.

Clarence C. Trenouth, the lower of two bidders for the three-year school bus contract, which expired in June, was awarded the contract. His figure was \$5700.

The committee anticipates that \$22,586.04 will be needed to cover the school costs for the ensuing year. Attention should be called to the state reimbursement, ing the net cost of \$12,196.04 to be borne by the town ing the net cost of \$12,916.04 to be borne by the town for the operation of its schools. It should be made clear that the reimbursement allowed by the state reverts directly to the town treasury and not to the school department.

The committee meets regularly on the Wednesday, preceding the first and third Mondays of each month, at the Berkley School.

Parents learn best of the effectiveness of the school program by visiting the schools and seeing the children at their actual tasks. They should feel free to visit the schools at any time. A cordial welcome awaits them.

Respectfully submitted,

MRS. MILDRED A. BABBITT,

Secretary, Berkley School Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of the Town of Berkley:

I hereby submit my second annual report for the year ending December 31, 1941.

Faculty Changes

Mr. James Horton, who had been a teacher at the Berkley Grammar School for several years, resigned to accept a position in business. Mr. Horton taught grades 7 and 8. Miss Mary G. Taylor of Harwich, Massachusetts, replaced Mr. Horton. Miss Taylor is a graduate of Hyannis State Teachers' College in 1939 and teaches in Grades 5 and 6. She is very well trained to lead the girls in Physical Education and also to coach plays. Two very fine presentations have already been given.

Miss Dorothea McAloon, teacher of Grades 1, 2, 3 and 4 at the Myricks School, resigned her position to marry. She was replaced by Miss Barbara Allan, a graduate of Bridgewater State Teachers' College in 1939. Miss Allan taught a year in a rural school in Mapleton, Maine.

Mr. Ernest Hale, teacher of Grades 5, 6 and 7, also Director of Physical Education, resigned to accept a position on Martha's Vineyard. Mr. Hale was a successful teacher and very helpful with the outside activities of the Berkley Grammar School. Mr. William Kearns of Weymouth was elected to the vacancy. Mr. Kearns graduated with honors from Bridgewater State Teachers' College in 1941, and teaches grades 7 and 8. He is also in charge of Boys' Physical Education.

Repairs at the Grammar School

The School Committee carried on the plans to create an auditorium at the Berkley Grammar School. The unfinished room in the new addition was changed so that with the opening of a folding partition between the present eighth grade room and the unfinished room, an auditorium to seat 250 is made available. A floor was laid in the unfinished part, a stage built and elec-

tric lights installed. This makes a fine auditorium and last June the graduation was held in the newly finished auditorium.

This fall many parents saw a play presented by the older boys and girls. This auditorium has proved valuable in assembly and patriotic programs. Some day in the future the room should be further finished and some kind of heat provided, but in view of present conditions we feel that 1942 is not the year for continuing this worthwhile project.

Education for the Defense of America

Emphasis is again being placed on citizenship and love of Country. Every teacher is preparing project lessons and programs to make our children realize the value of America and the freedom it gives us. In our schools there have been many patriotic assembly programs. Posters and children's drawings have a patriotic trend.

Our children have knit many sweaters and have made other garments for the children of England. All of the pupils are members of the Junior Red Cross and have made many garments. This work has been sponsored by the American Red Cross and has received the full cooperation of our pupils and teachers.

Since early fall Defense Saving Stamps have been sold at our schools. Two reasons are evident in this program. First, to teach thrift, and second to help our country in this time of national emergency. Our children have lacked the lessons of thrift during the last few years and so, I for one, am glad to have them taught to save rather than to spend all. In the past few months Berkley children have purchased nearly \$150 worth of stamps. Several children now have changed their stamps to bonds and all are especially proud to have a share in his or her country.

The sale of Defense Stamps is under the Berkley Defense Committee. Mr. William Cox is in charge of this worthwhile endeavor.

Defense leaders in answer to the question, "What can the school do to help in Defense?" reply, "Do what

you are doing, but do it better". The aim of all of our teachers is to do the job a little better so that our children will continue to enjoy and appreciate the freedoms they now enjoy.

Reading, Science and Arithmetic

This year a new reading system was adopted for the pupils of the first six grades. The teachers of these grades studied all available reading systems and finally decided on the "Gates Readers" as being the most interesting, most instructive in phonetic reading and most helpful in teaching a pupil to read for meaning. So much trouble in other subjects comes from the inability of the pupil to read for meaning that great care was taken in selecting readers that did train a pupil to read for understanding the work of text books. In the high school subjects, pupils fail because of their inability to read, whereas, they could have mastered the subject if they could understand what had been read. It is our hope that as we develop the grade school work of Berkeley Schools, that reading will improve to give the pupils the best possible training in the fundamentals of reading.

There is a need for a unified course in general science throughout grades 1 to 6. At present the course in Science is in the 7th and 8th grades but not in the first six grades. There should be a continuous growth in Science year by year, so that our children will better understand the birds, animals, trees of nature, fundamental laws of nature and how they affect their lives on this earth. With all of our subjects, it is our hope that they can be made continuous from Grades 1 to 8. Our major problem in the grades for next year is arithmetic as various texts by different authors are now in use. This year we have helped the study of arithmetic by supplementing the regular text book work with work sheets. With the purchase of duplicators for the schools, this extra work sheet method is proving most successful in results obtained. Many problems can be presented to the pupils to seek out and find individual weaknesses that would otherwise be overlooked. Next year we will conclude this most important work in arithmetic.

Health

One of the greatest weaknesses of the American School has been health. Men have been turned down by the thousands because of poor health, either with eyesight, dental or organic defects. Schools must do more and should start at once to develop a suitable health program that will really produce results.

A Dental Clinic has been available to all children of the Town and many a youngster has made the right start toward a healthier life with good teeth. Thru the efforts of Mrs. Mildred Babbitt, a member of the Berkley School Board, money was raised to purchase dental equipment. Berkley has a very fine dental outfit, thanks to the generous donations. A dental chair, engine and cabinet have been installed in the basement of the Berkley school. Dr. Edmund Tobin of Brookline is the dentist and has had excellent results at the clinic. Now that milk has increased in price, calcium deficiency will be found and teeth are bound to suffer. Not only is the care of teeth necessary, but care with the diet of the children is important. See that the child drinks milk and eats fruit rather than tonic and candy. The home can help much in this problem and improvement was noted during the year just passed.

As with all reports much more could be told but space does not allow it. I am most willing to answer any questions and discuss any individual problems that may arise. Please keep in mind that the public school is running to do the most good for the greatest number of pupils. It plans to make the future brighter for them. At present we have a war to win and all can count on the teachers to do their part. The teachers of Berkley stand ready to do all in their power to fight for democracy and to train future citizens to have an active faith in the future of America.

In closing, this my second report, I wish to thank the School Committee, the teachers, the pupils and the citizens for their help in the progress of the Berkley Schools.

Respectfully submitted,

E. PERLEY EATON.

ANNUAL REPORT OF SCHOOL PHYSICIAN AND SCHOOL NURSE

Mr. E. Perley Eaton,
Superintendent of Schools,
Berkley, Massachusetts,

Dear Sir:

The annual report of the school physician and the school nurse is hereby submitted.

We are glad to report that the school pupils have been free from epidemic contagious disease with but one exception. An epidemic of grippe, accompanied by severe cough, affected a large number of pupils during January and February. There were only isolated cases of other diseases during the school year.

The ear testing, using the state owned audiometer testing machine, was given to the pupils with three pupils showing hearing loss.

At the dental clinic held during the spring 85 pupils attended with 60 pupils having all dental work completed. This large response shows that the parents were appreciative of the establishment of this clinic.

The following clinics were held during the year:

Whooping cough immunization clinic with seven pupils attending.

Chadwick clinic with chest X-ray, with five pupils attending.

Pre-school clinic, with nine pupils attending.

A total of 185 pupils were given physical examinations during the fall. Of this number 13 showed marked defects and the parents were notified.

We wish to thank the parents and the teachers for their cooperation, without which our program could not be carried out successfully.

Respectfully submitted,

CHARLES A. BRIGGS, M. D.,
School Physician.

RUTH A. DEANE, R. N.,
School Nurse.

REPORT OF MUSIC SUPERVISOR

Mr. E. Perley Eaton,
Superintendent of Schools,
Berkley, Massachusetts,

Dear Sir :

I herewith submit my report on the work done in music in the schools of Berkley this past year.

Special attention was focused at all times on tone quality. With beginners it is difficult to point out the difference between head and chest tones, and unless this is made clear the singing is raucous and harsh. Many devices were used to produce the right quality and to show the child that good singing consisted not in quantity of tone but in quality, just as in the purchasing of material things at a store. It is a necessary part of a child's education in music to be able to recognize and to imitate the pure beauty of a free, flowing tone.

Every child is expected to take part in the music lesson. No one is excused because he cannot carry a tune. He may listen and acquire the habit of knowing HOW to listen and in time may become a music lover adding to his own experience the emotional joy that comes through music.

In the spring the MYRICKS and BERKLEY schools united in an entertainment in observance of MUSIC. I wish to thank all those who so kindly gave of their time to make this affair a success. One of the attractive features of the program was the little playlet on the life of HANDEL presented by the MYRICKS group. Some one remarked that each room did so well and each such a distinctive unit it was hard to tell which was the best. Some particularly liked the folk dances, others the DWARFS, and still others favored the COOKS and PIRATES and MISTRESS MARY.

Boys and girls always do better when they are "dressed up" for their parts. Costuming is an attractive feature and is well worth the expense and work involved.

The proceeds from the entertainment were used in defraying any expense in the purchasing of costumes and tickets, etc., and the balance including the money

from the sale of candy was equally divided among the different classes taking part. A balance of \$38.49 was realized. Berkley's share was used to purchase a new electric phonograph. A part of Myricks money was spent in additional instruments for the rhythm band and for records to be used in a music appreciation course.

A music memory contest will be held in the spring. A suggestive list of some of the world's best music has been placed in the hands of the upper grade teachers. Pupils should be able to name and to recognize a large percentage of these by the time they leave the eighth grade. The first four grades will learn to listen intelligently to music suited to their experiences. This will come through concentration and discrimination between familiar and unfamiliar themes. It is hoped that this project will open the way for the child's interpretation and understanding of some of the cultural beauty to be found in the music of the great masters.

Yours truly,

LOIS J. SNOW,

Music Supervisor.
